VAM A Quick clothing tutorial

ect your Model, make sure you are in the Tab Control, then click Select Root

Open now the clothing Tab

All the clothings you have in vam from other scenes, models or downloaded clothings will be available in here You can also download more clothes on the Virt-a-Mate Website.

Put the downloaded Var Files in your AddonPackage Folder in your Virt-a-Mate\Prog Folder

Now all cloths are stored in these Tabs (1) use the slider below if there are more than 14 Tabs. Now you maybe first want to undress your model before put on new clothes, therefore press the Remove All button (2) Your Model is naked now

If v

If you switch from All to Active (1), only clothings that are currently in use, will be displayed It can happen, that you select another person, go into the clothing menu and still the clothings from the previous model show up Therefore click on the Rescan Files Button (2) to refresh the clothings In User Prefs (3) you can tick different checkboxes for a clothing to better find it later with the Tags Filter...
