VAM Clone Objects

First you need to download the Plugin, Keybindings v1.3.0 from Acid Bubbles https://hub.virtamate.com/resources/keybindings.4400/updates#resource-update-43467

Copy the downloaded Var File to your AddonPackages Folder in Virt-A-Mate\Prog Folder

In Virt a Mate click on Select				
After that, click on	Session Plugins			

Then click on Select	File				
	Session	n Plugins			
Add Plugin					
Select File	Reload	Clear	Remove		
plugin#0	AcidBubbles Keybindings 22	/Custom/Scripts/AcidBubbles/Ke	ybindings/Keybindings.cslist		
plugin#0_Keybindings					
✓ Enabled Enter name			Open Custom UI		

Now Open Keybindings.cslist

Shortcuts	Current Directory	Directory (Option She	ow First	Sort By N	lew To Old Searc	:h
✓ Only Show Latest		Limit 🚺	450 1	-5 of 5		Show Hidden	Only Favo
Creator All							
key	X AddonPackages						
Root	AcidBubbles.Keybindings. 22.var.\						
Custom\Scripts	Custom\		- 1				
Custom/Scripts	Scripts\						
KeyKey.Lourdes.1	AcidBubbles\						_
Custom/Scripts	Keybindings\	src	ø	Keybi	ndings.cslist	6 KeybindingExtension	s_AddPlugin.
		KeybindingsExtensio griffiggers.	ns. ScenePlu 🌣	CustomC	commands.cslist	¢	

Click now on Open Custom UI...

Session Plugins			
Add Plugin			
Select File	Reload	Clear	Remove
plugin#0	AcidBubbles Keybindings 22:/C	ustom/Scripts/AcidBubbles/Key	bindings/Keybindings.cslist
plugin#0_Keybine	dings	_	
V Enabled	nter name		Open Custom UI

Scroll down to Add and set a Shortcut under Clone_CurrentAtom In this Case it is the Shortcut c

Session Plugins				
Add				
Clone_CurrentAtom	c			
AnimationPattern				
FloorsAndWalls_AtomSlate				
FloorsAndWalls_AtomWall				
FloorsAndWalls_AtomWoodPanel				
Force_CycleForce				
Force_GrabPoint				
Force_RhythmForce				
Force_SyncForce				
Light_InvisibleLight				
Misc_ClothGrabSphere				

If this is done, click close at the bottom

Back on your Screen, you can now select an Object and by clicking c or another Shortcut you have set in Keybindings Plugin, it creates a clone of the selected Object
